1 Hello world!

1.1 By Luis Pardina, student of Data Science @ IT Academy

1.1.1 Created on March 23rd, 2022

This is my *first file* created with **Jupyter Notebook**

See the beautiful use of *cursive and bold text*

Find below an ordered list of my favorite sports: 1. Ski 2. Running 3. Rugby

And now an unordered list of my favorite music: - The Cure - Rimsky-Korsakov - Rosalia

```
[1]: #short code to print the content of a list
sports = ["Ski","Running","Rugby"]
for (i,v) in enumerate(sports):
    print("Luis'favorite sport number {0} is: {1}".format(i,v))
```

```
Luis'favorite sport number 0 is: Ski
Luis'favorite sport number 1 is: Running
Luis'favorite sport number 2 is: Rugby
```

```
[2]: from IPython.display import Image
Image("C:/Users/chufl/Pictures/Bandido Cucaracha.jpg")
```
